

# Tiffany Rossi Castilho

## Junior Software Developer

São Paulo, Brazil | E-mail: [tiffanyrossi@gmail.com](mailto:tiffanyrossi@gmail.com) | [LinkedIn](#) | [GitHub](#)

### SUMMARY

Junior Software Developer with a passion for crafting effective and inventive solutions. Proficient in API RESTful and full-stack development, primarily utilizing Java and JavaScript, along with frameworks such as Spring Boot, Apache Camel, Angular, and React. Experienced with MySQL and Oracle databases, and capable of working within Scrum/Agile methodologies. Committed to ongoing professional growth and staying current with industry trends.

### EDUCATION

#### Backend Development Associate's Degree

UNOPAR • Graduated: December 2022

### SKILLS

- API RESTful and microservices architecture, Apache Camel, Spring Boot
- Angular, ReactJs and Bootstrap for frontend development
- Strong communication skills
- Fluent in English, both written and spoken

### COURSES

- **Full-Stack Development – Grande Porte TI (2022)**
  - Java SE, Spring Boot, JUnit 5, Mockito MVC, Apache Camel, Camunda BPM
  - JavaScript, TypeScript, Angular 11
  - Docker, SonarQube, DevOps with Git and GitHub
  - MySQL Database
- **Java/OOP Learning Track – Alura (2022)**
- **Git and GitHub – Digital Innovation One (2021)**
- **Linux – Digital Innovation One (2021)**

### EXPERIENCE

#### Software Developer – Nava Technology

*March 2022 – Present*

- Currently outsourced at Santander Bank, where I actively build RESTful APIs using Spring Boot, Apache Camel, Apache Maven, Camunda BPM, Rabbit MQ, and SQL Oracle Developer.
- Develop and maintain unit tests using JUnit 5 to ensure the reliability and quality of the codebase.
- Utilize Git and Jenkins for effective CI/CD DevOps practices, ensuring seamless software development and deployment.
- Operate within an Agile (Scrum) framework, proficiently managing tasks through Jira and Confluence.

**Freelance Developer**

*November 2021 - July 2023*

- Develop static websites using ReactJs, NextJs, Bootstrap, HTML, CSS, and Javascript.
- Cloud hosting, management and deployment using AWS tools: S3, Route 53, Cloudfront, CodePipeline, and AWS Amplify.

**Full-Stack Development Intern – 4DMais Technology**

*July 2021 – November 2021*

- During my internship, I actively contributed to the development of educational web projects, allowing me to acquire valuable hands-on experience with HTML, CSS, Javascript, MySQL and ReactJs.

**VOLUNTEER EXPERIENCE****Team Leader – Streamholics**

*March 2020 – February 2021*

- In my volunteer role, I co-led the Media Team at Streamholics, the largest livestreamer's social network in Brazil.
- I played a role in crafting effective work methodologies, developing essential tools, and building content strategies. These efforts led to the successful execution of impactful campaigns in collaboration with renowned brands such as Nuuvem and LogitechG.
